

**RFP 17-03****ADDENDUM 1**

Issued: March 13, 2017

**QUESTION AND ANSWER****QUESTION**

Will you please explain the format of the information the contractor will receive from City of Dunwoody in order to complete acquisitions?

**ANSWER**

GIS Data will be provided in an ARC GIS Database for aerial imagery, parcel boundaries and stormwater infrastructure. JPEGs will be provided of the Historical Plats when needed. The width and extent of needed easements is generally communicated to the successful contractor in the field. In some instances the width and extent of needed easements will be communicated to the successful contractor through sketches and provided via email.
